Summary

- Data Analyst with proven experience in media monitoring, sentiment analysis, and data visualization. Skilled in using tools like Power BI, and Excel to provide useful business insights. Designed and developed interactive dashboards that turn complex datasets into clear recommendations, improving decision-making in client-focused projects. Recognized for my problem-solving skills, adaptability, and analytical thinking. Committed to delivering high-quality data solutions that support business goals.

EDUCATION

Saffrony Institute of Technology

Bachelor of Engineering - CGPA - 7.61

2019 – 2025

Mehsana, India

PROJECTS

Hotel Review NLP 🔗 | Python, Jupyter, Data Science

July 2023

- Implemented an NLP-based sentiment analysis model to classify hotel reviews and extract customer insights.

Employee Promotion Prediction 🔗 | Python, Jupyter, Data Science

June 2023

- Built a data science model to predict employee promotions using machine learning techniques on HR data.

Payment-Integration 🔗 | JavaScript, HTML, CSS

Feb 2022

- Developed a payment integration module for a fundraising website to securely process online donations.

Experience

LocalMail 🔗

Nov 2023 – Feb 2024

Python Intern

Bangalore, India

- Developed APIs for the product named "LocalMail" including service layer utilizing repository/adapter patterns, enhancing productivity, error handling, and code reusability using Python FastAPI.
- Performed load testing using Postman, ensuring API reliability and performance. Tested APIs and created detailed documentation.
- Designed and implemented interactive UI components using React.js, ensuring responsive and accessible interfaces.
- Debugged and optimized front-end code to enhance user experience and performance. Created routes to implement the APIs.

AI Variant 🔗

Jan 2023 – July 2023

Data Science Intern

Bangalore, India

- Conducted data acquisition, validation, predictive modeling, and data visualization using Python.
- Cleaned and prepared large datasets for analysis using Numpy, Pandas, and PySpark.
- Developed statistical machine learning models to address business challenges. Created diverse charts and visualizations in Tableau for data analysis.
- Extensive experience in Text Analytics developing different Statistical Machine Learning, Data mining solutions to various business problems.

SKILLS

- **Tools:** Jira, Excel, PowerBI, SQL.
- **Analytics Areas:** Sentiment Analysis, Social Listening, Competitor Benchmarking, Media Analysis.
- **Soft Skills:** Problem Solving, Stakeholder Management, Analytical Thinking, Adaptability.

CERTIFICATIONS

- HTML, CSS, and Javascript for Web Developers: Coursera - Udemy
- Python for Beginners - Great Learning
- Machine Learning with Python - IBM
- Data Science - ExcelR
