Summary

- Results-oriented Software Engineer with hands-on experience in developing RESTful microservices using Python and FastAPI. Adept at performing data analysis, machine learning, and predictive modeling. Proven ability to manage production deployments, troubleshoot critical incidents, and collaborate effectively with cross-functional teams.

EDUCATION

Saffrony Institute of Technology

Bachelor of Engineering - CGPA - 7.61

2019 – 2025

Mehsana, India

PROJECTS

Hotel Review NLP  | Python, Jupyter, Data Science

July 2023

- Implemented an NLP-based sentiment analysis model to classify hotel reviews and extract customer insights.

Employee Promotion Prediction  | Python, Jupyter, Data Science

June 2023

- Built a data science model to predict employee promotions using machine learning techniques on HR data.

Payment-Integration  | JavaScript, HTML, CSS

Feb 2022

- Developed a payment integration module for a fundraising website to securely process online donations.

INTERNSHIP

LocalMail 

Nov 2023 – Feb 2024

Python Intern

Bangalore, India

- Developed APIs for the product named "LocalMail" including service layer utilizing repository/adapters patterns, enhancing productivity, error handling, and code reusability using Python FastAPI.
- Performed load testing using Postman, ensuring API reliability and performance. Tested APIs and created detailed documentation.
- Designed and implemented interactive UI components using React.js, ensuring responsive and accessible interfaces.
- Debugged and optimized front-end code to enhance user experience and performance. Created routes to implement the APIs.

AI Variant 

Jan 2023 – July 2023

Data Science Intern

Bangalore, India

- Conducted data acquisition, validation, predictive modeling, and data visualization using Python.
- Cleaned and prepared large datasets for analysis using Numpy, Pandas, and PySpark.
- Developed statistical machine learning models to address business challenges. Created diverse charts and visualizations in Tableau for data analysis.
- Extensive experience in Text Analytics developing different Statistical Machine Learning, Data mining solutions to various business problems.

TECHNICAL SKILLS

- **Languages:** C, C++ (OOPS Concept), Python, JavaScript, HTML, CSS.
- **Developer Tools:** VS Code, Jira, Git, Google Colab, Jupyter, AWS, Postman, Tableau, PyCharm.
- **Technologies/Frameworks:** FastAPI, REST API, React.js, WordPress, Poetry, NumPy, Pandas, Scikit-learn.

CERTIFICATIONS

- HTML, CSS, and Javascript for Web Developers: Coursera - Udemy
- Python for Beginners - Great Learning
- Machine Learning with Python - IBM
- Data Science - ExcelR
